

AGWP 10

Cordless thread drill up to M 10

Order number:: 7 109 01 62 00 0

FEIN SELECT⁺

Fast, accurate thread drill with reversing gear for shorter working times.

- Unique speed thanks to reversing gear for automatic reversal of rotation direction when retracting drill spindle from threaded hole. Rapid return action at 670 rpm for shorter cycle times.
- Outstanding precision due to clearance-free connection of drill shaft and threaded chuck with B12 taper mounting for high concentricity. Positive fit of thread drill in chuck for the best results.
- FEIN sensitive handle for applying feed force in the direct drilling axis while ensuring an ideal position in the guiding hand.
- Brushless FEIN PowerDrive motor with 30% higher efficiency.
- Small width across corners of 23 mm.
- Metal gear head.

Technical data

Current/Voltages	18 V
Idling speed in reverse running	0-760 rpm
Load speed when cutting	0-440 rpm
Load speed in reverse running	0-670 rpm
Torque at max. output power	26 Nm
Stall torque	41 Nm
Thread in steel up to	M 10
Thread in stainless steel up to	M 10
Collar Ø	43 mm
Cone at drill shaft	B 12
Width across corners	23 mm
Cordless	X

Price includes:

- 1 additional handle
- 1 plastic carrying case
- Threaded chuck not included
