

QX Series Cordless Torque Multiplier

REAL TOOLS FOR REAL WORK.™

Next-Generation Productivity

Ingersoll Rand QX Series Cordless Torque Multiplier

The innovative QX Series Cordless Torque Multiplier will reduce your assembly time and cost, while ensuring repeatable accuracy for all torque-critical joints. Designed with a premium gearbox and an efficient, time-tested closed-loop transducer, this tool will fasten the bolt, validate, and record each result, managing your total operation.

Tool Features

RELIABILITY

The proven QX Series brushless motor paired with a premium gearbox for unparalleled quality

ACCURACY

Ingersoll Rand's patented closed-loop transducer control at the heart of the tool delivers precise torque and accurate, traceable results

CONTROL

User-programmable configurations for torque, angle and gang count that reduces the number of tools needed for multiple applications.

COMMUNICATION

Manage data, process control and the ability to adjust tool configurations (Ethernet, fieldbus and I/O capable)

COMFORT

Cordless and compact, the QX Series Multiplier allows operators to move freely without the need of bulky air hydraulic hoses, compressors, generators or powerpacks

FLEXIBILITY

360 degree adjustable arm and 6mm port for eye-hook or other teathering point

Specs

Model	Nm	1 min. rpm	kg*	mm*	in	V	Communication

QXX2PT2000NPS16	400 - 2000	5	6.8	452	1"	20V	Wireless Enabled

*Weight and length do not include battery. Battery sold separately. QXX requires a Process Communication Module to communicate wirelessly, sold separately.

IQV Battery Platform

All QX Series IQV20 tools are compatible with both the BL2022 and BL2012 batteries. The BL2022 is optimum for longer use applications while the BL2012 is ideal for tighter spaces and reduced weight.

BL2012

BL2022

BC1121-EU

Purchasing Options

Kit - 2 BL2022 Batteries, Tool, Charger, Bag

Accessories

Reaction bars plate, 90 degree, with sliding slave square - weld ring - nose extension

Hard case

BL2012 battery sold separately.
