Teng Tools Model - 1292P200

**½" Square Drive Plus Torque Wrench
40 - 200 Nm**

Industrial Grade Torque Wrenches designed and Manufactured to exceed ISO6789 with an accuracy of +/- 4 % maximum. A 72 teeth ratchet mechanism allows for greater access even in confined spaces and incorporates a quick release mechanism and twist reverse for changing direction but torque is only measurable in the conventional right hand direction but torque is only measurable in the conventional right hand direction. The scale is an easy to read window style Nm scale while the handle has an ergonomically designed bi-material grip for added comfort and a hanging facility that can also be used in conjunction with a Teng Tools safety wire for added security when working at heights. The Plus torque wrenches also feature a safety button to enable reliable locking of the torque setting.

Accuracy +/- 4% Maximum
